

## TLI40319 Certificate IV in Logistics (Release 1)

Certificate IV in Logistics is designed to develop skills and knowledge for an individual to operate within the warehouse and logistics industry:

- Increase awareness of legislation requirements and your Chain of Responsibility requirements
- Enhance your skills in safety
- Knowledge of logistics & warehouse operation
- Quality systems & customer service
- Improvement processes
- Stock control, Receiving and Dispatch operations

**Gain the qualifications you need to be a part of this growth industry and help keep Australia moving.**

### **QUALIFICATION DESCRIPTION:**

This is a qualification for those engaged in logistics operations in the Transport and Logistics Industry in a variety of operational roles. It involves a broad range of skilled applications including requirements to evaluate and analyse current practices, to develop new criteria and procedures for performing current practices, and to provide leadership and guidance to others in applying skills and planning skill development. Successful achievement of the licensing units within the qualification must align with applicable licensing and regulatory requirements.

### **We achieve results by ensuring that our training programs are:**

- Flexible, innovative, current practice, interesting and engaging
- Driven by workplace outcomes

### **DELIVERY & DURATION:**

- Workplace-based delivery over 12 months
- Practical hands on application to support learning
- Our Trainer/Assessor is in the workplace
- Observation, Questioning, Third Party Reports, Workplace Evidence

### **COURSE FEES:**
